

INTENT: Our 'Character Curriculum' is where we provide students with experiential learning outside of the classroom. We aim to offer range of options that provide a balance between learning more about themselves as individuals and challenge knowledge and skills already gained in other subject areas

" Barnhill's Character Curriculum runs parallel to our curriculum, offering students further opportunities: before school, at lunchtime and after school to further develop themselves as individuals. These clubs are across all subject disciplines and promote student growth, independence and individuality. "

Character Curriculum Clubs on Offer

KS3

An introduction from our Headteacher

"At Barnhill we believe strongly in the need for a rounded education. Our focus is jointly placed on our students achieving the best academic results and on building strong character. The Barnhill Character Curriculum educates our students to become active citizens who engage in British and the global society."

These are the six pillars of the character curriculum:

Student behaviour & attitudes	Student leadership & voice	Careers: CEIAG	Cultural capital	Citizenship & British Values	PSHE
					
All students are taught moral, social and ethical standards of behaviour. They are inspired to learn to become the best that they can be.	All students are active, confident thinkers and eloquent speakers. "Learning to use your voice. Using your voice to learn."	All students are taught the knowledge and skills to make confident and informed choices for their future education and careers in modern Britain.	All students are enriched and inspired through understanding and enjoying the very best that has been thought and said.	All students are taught the knowledge and skills to play a full and active part in British society.	All students are taught the knowledge, attitudes and practical skills to live healthy, safe, productive, fulfilled, capable and responsible lives.

Great academic outcomes open the doors to university places and employment. However, students need to develop great character to access those opportunities and most of all to enjoy them.

Partaking in clubs is an enjoyable and rewarding way to develop sporting and mental skills. Students can learn new skills, become better at existing ones and even teach their fellow students. At Barnhill we ask that all students partake in a number of clubs to develop great strengths of Barnhill character."
